

GENERAL INFORMATION

MAILING ADDRESS

101 East 15th St.
2nd Floor
New York, NY

GENERAL DIMENSIONS

Room: 78' L x 45' W
Stairwell to dressing rooms and lounge in the northeast corner of the room protrudes approximately L15' x W11'

LOADING

Loading may occur from either of the two main entrances to the room. Primary entrance is 20 Union Square East, facing the park. Permanent ADA ramp is available for loading. Any items using these double-doors **MUST NOT EXCEED 6'x6'6"**.

The other door is 101 E15th Street. Access is gained through double-doors that separate the house from the lobby. Any items using these doors **MUST NOT EXCEED 5'-6"x 6'-6"**.

ENTRANCES

In addition to the two entrances listed above, there is a hallway in the North-East corner. This may be used for small storage and secondary access to the ADA bathroom and lobby. However, it must remain clear if capacity dictates it to be used as a fire exit.

DRESSING ROOMS

There are 3 Dressing rooms located on the basement level.

Dressing room 1 is approximately 13'4" x 15'10" with closet, bathroom and shower.

Dressing room 2 is approximately 8'8" x 15'8" with bathroom and shower.

Dressing room 3 is approximately 12'3" x 15'1" with a connecting door to dressing room 2.

F/X

ALL F/X MUST BE APPROVED BY THE DRT GENERAL MANAGER BEFORE USE.

Companies must submit notice to the DRT **three weeks prior** to the show opening of any F/X used. This includes Fog, Smoke and Water.

Any open flame permits must be secured no less than 2 days before tech begins at the time and expense of the production. All testing must be scheduled and the technical director must be present.

RIGGING

All overhead rigging **MUST** be approved by the DRT Management. There is no permanent Lighting Grid. House Truss may be reconfigured to meet the needs of the production.

SOFTGOODS

The room comes outfitted with Black Velour drapes on all four walls. Additional inventory available upon request.
